# *Learn how to best protect and grow your wealth in the face of a possible depression*

We cordially invite you to join us for the upcoming Inner Circle Briefings in the garden city of Victoria, British Columbia and the tropical breeze of Paradise Island, the Bahamas.

As always, our goal for you is combining a solid financial education with first-class pleasure. Moreover, in the upcoming Briefings, our highest priority will be to fully alert you to and prepare you for the next phase of the evolving global crisis.

Amongst other topics, we will be discussing the implications of out-of-control fiscal and monetary policies, the outlook for fiat currency systems and precious metals, the dire reality of large-scale wealth transfer and their related regulatory trends and challenges, as well as timely portfolio management strategies in line with the impending deflationary-inflationary step sequence.

It will be our privilege to show you why it is essential to focus on wealth preservation first, and how to profit from the paradigm shift ahead. We will share our insights on how to do things right; in other words, safely, conveniently and in full compliance with the laws of your country!
